

The Louisville & Jefferson County Metropolitan Sewer District (MSD) hereby gives notice of its intent to hold a series of public meetings to present information and receive public comment relative the Integrated Overflow Abatement Plan (IOAP). This plan is being prepared by MSD in response to its Consent Decree with the USEPA and the Kentucky Environmental and Public Protection Cabinet dated August 12, 2005. MSD intends to review the overall IOAP approach for complying with this Consent Decree, and to present preliminary information related to potential capital construction projects that may be required as a result of the plan. Public comment is desired on both the compliance approach and on potential projects that may result.
