

WE Want YOU To SHARE Your THOUGHTS!

MSD is holding a meeting in your neighborhood. This meeting will provide customers with an update on Louisville Metro's sewer overflow abatement program, which is currently underway and estimated to cost \$850 million. This program is in response to a 2005 Federal mandate from the Environmental Protection Agency. Customers will hear about sewer overflow abatement projects in their neighborhood and tips on how each person can help keep sewer rates lower.

MSD is holding these meetings to keep you informed. We are seeking public input from you so that these specific projects and property decisions can reflect concerns of the people that are directly impacted. MSD encourages your participation so that together we can promote a clean, green, growing community.
