Subject: Integrated Overflow Abatement Plan (IOAP)  
Public Input Meeting September 27, 2011  
Response to comments

Dear [REDACTED]

Thank you for taking the time to submit your comment relative to the Floyds Fork Environmental Association. Your comment is summarized below, and your email is attached for reference.

Comment

It is important that the Floyds Fork Environmental Association (FFEA) have a seat at the table to be a stakeholder on Project WIN.

Response to comment

MSD developed the Wet Weather Team Stakeholder Group with representatives from various backgrounds, regions of the community, and perspectives. The Stakeholder Group performed a critical role in developing the Integrated Overflow Abatement Program (IOAP) which was approved by the regulators in September, 2009.

While their primary function has been completed, the Stakeholder Group continues to meet informally for progress updates, and to provide input that benefits the program based on the understanding they developed over 2 ½ years of working on the IOAP. MSD has no plans to add members or replace members as they may leave. Instead, MSD has instituted an alternate form of obtaining community input through the IOAP Public Review and Input Meetings like the one held on September 27, 2011.

Through participation in these IOAP Public Review and Input Meetings, the FFEA will have a "seat at the table" equivalent to all other interested individuals and organizations. MSD invites you to attend the next meeting scheduled on Tuesday, January 24, 2012. The meeting will be held at the Kentuckiana Girl Scouts Headquarters on Lexington Road at 6:30 pm.
